As an experienced iOS app developer with more than 4 years of experience, I possess a deep understanding of various iOS development tools and platforms, including Xcode, Swift, Objective-C, Cocoa Touch, and Interface Builder. I have demonstrated my ability to deliver projects on time and within budget by leveraging my strong analytical, problem-solving, and teamwork skills. With a passion for continuous learning and staying up-to-date with the latest technologies and trends, I am confident in my ability to take on new challenges and make valuable contributions to any iOS development team.

TECHNICAL SKILLS & TOOLS -----

Programming languages: Swift, Objective-C, Java, HTML, CSS
Tools: Xcode, Git, GitHub, Bitbucket, SourceTree, Jira, CocoaPods, TestFlight

PROFESSIONAL SUMMARY-----

- Work experience in Swift and Objective-C.
- Experience in using REST-based Web Services.
- Collaborated with the scrum team to translate client requirements into implementable user stories
- Decent knowledge of MVC and MVVM architecture.
- Managed project and bugs with tools such as Trello and Jira.
- Experience in Agile/Scrum software development.
- Keep code updated on remote repository via GitHub.
- Experience in using REST-based Web Services.
- Good knowledge on push notification integration.
- Implemented third party libraries via CocoaPods.

WORK EXPERIENCE -----

iOS Developer, January 2022 – May 2023
Relational UK Ltd – London, UK

- Led the development of iOS application, overseeing a team of developers and ensuring high-quality code, best practices, and optimal performance.
- Collaborated with cross-functional teams, including backend developers, UX designers, and QA engineers, to deliver high-quality applications on time and on budget.
- Design and implement complex features and functionality, working with a variety of third-party APIs and libraries, such as Google Maps, Stripe, Firebase, and AWS.
- Maintained existing applications, debugging, and testing, and implementing new features as needed.
- Optimized app performance, including start-up time, memory usage, and network performance, resulting in significant improvements in app ratings and user engagement.

iOS Developer, January 2020 – December 2021
Inspiration Solution – Surat, Gujarat, India

- Optimize app performance and user experience, leveraging advanced iOS features and technologies, such as Core Data, Core Animation, and Core Location.
- Collaborate with backend developers to design and implement RESTful APIs and other integrations, ensuring seamless integration between front-end and back-end systems.
- Manage app releases and updates, working closely with the App Store team to ensure compliance with Apple's guidelines and submission requirements.
- Achieved over 300K downloads on the AppStore.

iOS Developer, June 2018 – December 2019
Ebizz Infotech – Surat, Gujarat, India

- Worked with frameworks such as UIKit and Foundation.
- Integration of Google Maps, Google AdMob and Google Analytics.
- Retrieved secured dynamic data form the web server using JSON and XML parsing using Swift.
- Work on bug fixing and improving application performance.
- Developed one to one and one to many video call application using Agora RTC SDK.
- Implemented Image caching and retrieving from the cache to improve the performance of the application.

EDUCATION -----

Bachelor of Computer Applications
Sutex Bank College of Computer Application & Science - Surat, Gujarat, India
June 2015 – April 2018

PROJECT WORK-----

- **[GymTimer - Boost your workouts:](#)** Added calendar with workouts details. Redesigned the full app. API integration to sync workout data.
- **[Mandobk:](#)** Redesigned the app and integrated Google Places Autocomplete API. Helped fix some bugs.
- **[Taxisti:](#)** Added feature to display live taxi location on map. Integrated gradient route drawing feature to indicate taxi route on the Google Map.
- **[Faster - Repost For Instagram:](#)** Designed app from scratch. Added In-App purchase feature. Published and maintained app on the App Store.
- **FIBOW (Under Development):** Built the app from scratch. Implemented socket for real time communication. Added QR code generating and reading feature.
